Instruct your learners to interact with the resource in "edit mode." This allows them to add their own text and/or move pieces.

The user will be prompted to choose to edit the file in PowerPoint or online. Select online. It will then open in browser. Follow your normal steps in sharing the file with your learners. Go to Share > Share with people. Choose the option to View only. Teach your learners how to make a copy on their own device before editing the file. This ensures that your learners don't edit the original file.
