## Microsoft OneDrive Directions

1. Open the Google Slides via the link above.
2. From the menu, go to FILE > Download as > Microsoft PowerPoint (.pptx)
3. You will need to download the file to your own computer before the next step.
4. Open your OneDrive. Create a folder for your visual menu resource. This step is recommended to keep you and your learners organized.
5. From the menu, select Upload > Files. You can drag and drop the file from your computer or select the file to upload it.

Make sure your Google Drive resource is ready to be shared with your learners, if you choose to do so. Always open it to make sure it’s in good working order before presenting it to them.

Instruct your learners to interact with the resource in “edit mode.” This allows them to add their own text and/or move pieces.

The user will be prompted to choose to edit the file in PowerPoint or online. Select online. It will then open in browser. Follow your normal steps in sharing the file with your learners. Go to Share > Share with people. Choose the option to View only. Teach your learners how to make a copy on their own device before editing the file. This ensures that your learners don’t edit the original file.

# PRINTABLE TASK CARDS

Laminate and cut out the cards beforehand if you want learners to do Step 3 as seen below. Use with a small group under your guidance as you introduce this phonics pattern or as an independent activity to review the pattern.

**\*Don't Skip!** Once answers have been checked, encourage learners to read the words they've spelled on their recording sheet *without the help* of pictures from the task cards.
